

AOI Articulate Showcase

SPEAKER: Articulate 360 is a suite of programs that let us make entirely customizable interactive activities for online courses and web pages.

Anything from simple quizzes to complex games, presentations, or showcase pages can be made with articulate 360. Whatever your course subject matter, we can make an activity for it.

These activities are fully capable of integrating with Canvas and are formatted for use on both computers and mobile devices.

Get in contact with us to discuss what kind of activities we can build for you!
